Introduction

The **Tanzania Green Summit** also known as the **Tanzania Kijani Summit** is envisioned as the largest and most inclusive platform for environmental and climate action stakeholders in Tanzania. This annual event aims to bring together key players—including NGOs, CSOs, government institutions, private sector innovators, climate activists, and community leaders—to foster dialogue, showcase innovations, and accelerate action towards a greener and more sustainable future for Tanzania.

Tanzania faces significant environmental challenges, ranging from the impacts of climate change to deforestation, pollution, and unsustainable resource management. At the same time, the country holds immense potential for green growth, with opportunities in renewable energy, sustainable agriculture, clean cooking technologies, and circular economy solutions. The Tanzania Green Summit seeks to harness this potential by providing a collaborative platform for knowledge exchange, innovation, and partnership building. The Tanzania Green Summit it is also focus on empowering youth to turn their ideas into climate-smart solutions and green businesses that create real jobs. Through the Youth Environmental Entrepreneurship platform, we will connect with young changemakers across Tanzania who are already making a difference for the environment. They will get mentorship, networking, and access to resources and investors to help their projects grow. The most outstanding innovators will be celebrated with awards, shining a spotlight on their achievements. Together, we aim to inspire a new generation of eco-leaders shaping a greener, brighter, and more sustainable future for Tanzania.

***“Driving Climate
Solutions for a
Greener Future,”***

Guided by the theme ***“Driving Climate Solutions for a Greener Future,”*** the summit aligns with global commitments such as the United Nations Sustainable Development Goals **SDGs** and Tanzania’s own National Climate Change Strategy. It underscores the urgency of collective action to combat climate change and highlights the role of local solutions in addressing global challenges.

The summit will serve as a catalyst for transformative ideas and initiatives, showcasing success stories from Tanzania and beyond while inspiring new approaches to environmental sustainability. Through exhibitions, panel discussion as, entertainment educational events, awards, and networking opportunities, the aim of **Tanzania Green Summit** is to empower stakeholders to take bold and innovative steps toward building a resilient and eco-friendly future.

Tanzania Green Summit Launch Update

Tanzania Green Summit was launched this year on **04th July, 2025** with a special launch event designed to set the tone for future summits. This launch brought together key players and partners in a celebratory and impactful gathering.

Tanzania Green Summit Launch Gallery

Is Officially Launched

Tanzania Green Summit is officially scheduled to take place from 15th - 16th Sept 2026, in Dar es Salaam, Tanzania.

This high-level event will bring together key stakeholders, policymakers, industry leaders, development partners, and innovators to advance the national agenda on sustainable development, climate action, and green growth.

Objectives

Primary Objective

To foster collaboration and innovation among stakeholders to address environmental challenges and accelerate sustainable development in Tanzania.

Secondary Objective

Showcase Innovations:

Highlight cutting-edge technologies, practices, and solutions in green energy, clean cooking, recycling, and sustainable agriculture.

Strengthen Partnerships:

Facilitate dialogue and partnerships between NGOs, government bodies, private sector players, and community leaders.

Increase Public Awareness:

Promote understanding and engagement on environmental sustainability and climate action through public education initiatives.

Recognize Excellence:

Celebrate and award outstanding contributions to climate action and environmental conservation.

Promote Policy Advocacy:

Encourage the formulation and implementation of policies that support sustainable environmental practices and green growth.

Youth Environmental Entrepreneurship, Innovation & Green Jobs

Empowering young innovators and entrepreneurs to develop climate-smart solutions, create green enterprises, and drive sustainable employment opportunities.

Thematic Areas

The Tanzania Green Summit will center on six interrelated thematic areas that highlight Tanzania's potential to lead in environmental innovation, green growth, and sustainable development:

Renewable Energy
& Green Technology Transformation

Biodiversity, Conservation
& Natural Resource Management

Sustainable Agriculture,
Technology & Food Systems

Youth Environmental Entrepreneurship,
Innovation & Green Jobs

Pollution Control, Waste Management
& Circular Economy Solutions

Climate Action, Innovation
& Resilience

Youth Environmental Entrepreneurship, Innovation & Green Jobs

Empowering young innovators and entrepreneurs to develop climate-smart solutions, create green enterprises, and drive sustainable employment opportunities.

Climate Action, Innovation & Resilience

Leveraging technology and data-driven approaches to enhance climate adaptation, mitigation, and disaster risk reduction for resilient communities.

Renewable Energy & Green Technology Transformation

Promoting clean and affordable energy solutions, digital innovations, and technological advancements that accelerate Tanzania's transition to a low-carbon economy.

Sustainable Agriculture, Technology & Food Systems

Advancing climate-smart agriculture, agro-tech innovation, and sustainable value chains to boost productivity, food security, and rural livelihoods.

Biodiversity, Conservation & Natural Resource Management

Using modern conservation tools and community-based innovations to protect ecosystems, forests, wildlife, and water resources.

Pollution Control, Waste Management & Circular Economy Solutions

Harnessing innovation and technology to reduce pollution, enhance recycling, and advance circular economy practices for cleaner production and consumption.

Tanzania Green Summit Topics

The Tanzania Green Summit will feature high-level dialogues, panel discussions, and fireside conversations around the following strategic topics shaping the country's green transition

COP30 Reflections: Aligning Global Outcomes with Tanzania's National and Partner Priorities

Exploring the key takeaways from COP30 and how global commitments can be localized to advance Tanzania's environmental and climate goals

Innovative Climate Financing: Unlocking New Pathways Amid Global Funding Challenges

Discussing creative financing models, blended finance, and local innovations to overcome climate funding gaps and scale sustainable solutions.

Tanzania Vision 2050: Positioning Climate Action at the Heart of National Development

Examining how the country's long-term development agenda integrates sustainability, green growth, and resilience-building across sectors.

Driving Green
Solutions for a
Greener Future

Accelerating Clean Cooking Transitions in Tanzania

Showcasing progress, innovations, and partnerships driving access to clean cooking solutions for healthier homes and reduced emissions.

Green Financing Opportunities for Private Sector and Local Actors

Highlighting emerging investment opportunities, financial instruments, and incentives supporting green enterprises and sustainable projects.

Empowering Youth for Green Entrepreneurship and the Future Green Economy

Exploring how youth innovation, skills development, and entrepreneurship can accelerate inclusive growth in the green transition.

Water Resources and Climate Change: Building Resilience for People and Nature

Addressing the impacts of climate change on water security and discussing integrated approaches to sustainable water resource management.

Key Activities

Pre-Summit Activities

A series of activities will be implemented to build momentum and stakeholder engagement ahead of the Tanzania Kijani Summit 2026.

Public Awareness and Media Campaigns

A national multimedia campaign will promote the summit's theme and encourage public participation through stories from climate champions, influencers, and communities.

Pre-Summit Dialogues and Consultations

Regional and virtual dialogues will gather insights from youth, policymakers, and civil society to shape the summit agenda and ensure inclusive participation.

Youth Environmental Entrepreneurship Program

A nationwide initiative to empower young innovators leading green ventures in areas such as renewable energy and waste management, culminating in awards recognizing outstanding youth-led projects.

Summit Activities

Opening Ceremony

Officially inaugurates the summit with keynote speeches from national leaders and partners, setting the vision for Tanzania's green transformation.

High-Level Panel Discussions

Brings together policymakers, private sector leaders, and experts to share insights and drive actionable strategies across the six thematic areas.

Breakout Forums

Interactive sessions focusing on specific themes such as renewable energy, sustainable agriculture, and waste management, encouraging solution-oriented dialogue.

Exhibitions

Showcase of innovative products, technologies, and projects from startups, corporations, and institutions contributing to Tanzania's green economy.

Networking Sessions – B2B and Stakeholder Engagement

Facilitated networking spaces for investors, innovators, and policymakers to explore partnerships and investment opportunities.

Youth & Innovation Lab

Engages young innovators through mentorship, dialogue, and start-up pitch sessions showcasing impactful green solutions.

Media Forum

A roundtable for journalists to strengthen climate reporting, storytelling, and public engagement on environmental issues.

Award Ceremony

Celebrates individuals and organizations making remarkable contributions to environmental sustainability in Tanzania, with special recognition for youth environmental entrepreneurs leading innovative and impactful community initiatives.

Cultural and Entertainment Night

An evening of eco-themed performances, art, and music promoting environmental awareness through creative expression.

Closing Ceremony

Wraps up the summit with key takeaways, commitments, and next steps toward advancing a greener Tanzania.

Expected Outcomes

01

Increased Awareness:

Greater public understanding of environmental issues and climate action solutions through media coverage and public awareness campaigns.

02

Enhanced Collaboration:

Strengthened partnerships between stakeholders, fostering joint initiatives and shared resources to address environmental challenges.

03

Policy Recommendations:

Concrete proposals for policy changes and strategies to promote green growth and sustainable development.

04

Innovation Adoption:

Broader uptake of showcased technologies and practices, driving the transition to renewable energy, sustainable agriculture, and circular economy models.

The background of the entire image is a dense, vibrant green fern foliage. The leaves are intricate and layered, creating a rich, textured pattern. The lighting is even, highlighting the natural green tones of the plants.

05

Recognition of Excellence:

Increased motivation for individuals and organizations to contribute to climate action through awards and recognition

06

Empowered Communities:

Greater engagement of grassroots communities in climate action initiatives, fostering local ownership and sustainability.

07

Increased Investments:

Attraction of funding and investments in green technologies and sustainable projects, boosting economic growth and environmental resilience.

Tanzania Green Summit (TGS) Youth Environmental Entrepreneurship Program

Overview:

The TGS Youth Environmental Entrepreneurship Program is a flagship pre-summit initiative aimed at identifying, empowering, and promoting young environmental innovators and entrepreneurs across Tanzania.

Key Highlights:

» Nationwide Identification & Shortlisting:

Young innovators and entrepreneurs with impactful environmental projects will be scouted and shortlisted from across the country.

» Project Review & Competition:

Shortlisted projects will be reviewed, and top initiatives will qualify to compete for funding and support opportunities.

» **Regional Youth Workshops:**

Three major physical workshops will be held in selected regions, bringing together youth to:

- ◆ Network and inspire each other.
- ◆ Learn new skills and strategies to strengthen their initiatives.
- ◆ Showcase and exchange ideas with fellow young innovators.

» **Summit Participation:**

Selected finalists will be invited and facilitated to attend the Tanzania Green Summit, where they will:

- ◆ Showcase their projects to a national audience.
- ◆ Present to potential funders and strategic partners.

» **Global Visibility:**

Qualified projects will be featured on the TGS online portal, promoting them to the global green community for partnerships, visibility, and ongoing support.

» **Goal:**

To empower and connect youth-led environmental innovators, accelerating sustainable impact across Tanzania and beyond.

Call to Action

The time to act is now. Join us at the Tanzania Green Summit and be part of a transformative movement towards a sustainable and resilient future. Whether you are an innovator, policymaker, activist, or citizen, your contribution is vital in addressing the environmental challenges we face today.

- ★ Register to be part of the summit activities for this year and explore opportunities to collaborate, learn and innovate.
- ★ Showcase your green technologies and initiatives by becoming an exhibitor.
- ★ Showcase your green technologies and initiatives by becoming an exhibitor.
- ★ Partner with us to amplify the impact of the summit and reach wider audiences.
- ★ Engage with like-minded individuals and organizations through networking sessions and dialogues.

Together, we can drive climate solutions for a greener tomorrow. For more information, visit our official website or contact us at **+255 746 483 796 / 0621 780 276.**

Let's make a difference one action at a time!
